

Packet Tracer Installation

Goals:

Install Cisco packet tracer on Windows, Linux, or Mac

Steps:

1. Go to Cisco packet tracer website:

<https://www.netacad.com/courses/packet-tracer>

2. Sign up an account if you do not have one.
3. Log in to your account. Go to **Resources->Download Packet Tracer**.
4. You can download different versions of Packet Tracer according to your system.

The screenshot shows a web browser window with the URL [netacad.com/portal/resources/packet-tracer](https://www.netacad.com/portal/resources/packet-tracer) in the address bar. The main content is titled "Download". It includes a warning about EULA and SEULA, download links for Windows (64-bit and 32-bit), Linux, and macOS, and links for "Considering to upgrade?" and "FAQ".

Download

DOWNLOADING, INSTALLING, OR USING THE CISCO PACKET TRACER SOFTWARE CONSTITUTES ACCEPTANCE OF THE Cisco Packet Tracer End User License Agreement ("EULA") AND THE Cisco Packet Tracer Supplemental End User License Agreement ("SEULA"). PLEASE DO NOT DOWNLOAD, INSTALL OR USE THE SOFTWARE.

Packet Tracer requires authentication with your login and password when you first use it and for each subsequent session.

Considering to upgrade?

- For CCNA 7.0.2, Packet Tracer 8.0 64-bit is the minimum version for new activities and new assessments.
- For CCNA 7, Packet Tracer 7.3.1 is the minimum version for all courses for activities and assessments.
- For CCNA 6, suggest use Packet Tracer 7.2.2. It has been most thoroughly tested for compatibility.
- For IoT Introduction, suggest use Packet Tracer 7.2.2. The scripts in those labs may be incompatible.
